Rating for MuBeauty:

If you've looked for a light-weight moisturizing oil – you're going to love MuBeauty's MuFace.

MuFace restores dull lifeless skin into beautiful healthy skin. Enriched with plant-based antibacterials, natural anti-inflammatories, and botanical antioxidants, stressed skin is soothed and hydrated from the inside out.

MuFace improves the appearance of rosacea and fights the signs of premature aging while healing the skin.

I loved the quick absorbing light-weight oil that left my skin with that naturally healthy glow.

MuFace contains a blend of 13 plants, herbs and fruits that protect against free radicals, and helps remove impurities for clearer more luminous skin.

MuFace is inspired by time-honored effective healing traditions, because everything we put into our bodies should be healthy.

MuFace is inspired by time-honored effective healing traditions, because everything we put into our bodies should be healthy.
